

The intent of this letter is to provide public support of Rep. Rick Perales. As a Military/Iraq War Veteran myself, now working as the CEO of The Catalyst, and in doing so, helping Veterans & their families help themselves, I've unfortunately come across many proclaiming publicly to help Veterans, but never truly doing so. That cannot be said about Rep. Perales. Time and time again, he has volunteered his valuable time, tremendous knowledge, and considerable resources to helping our Veteran Candidates and their families in a myriad of ways.

In this industry, most politicians, even Veterans themselves, unfortunately, utilize their background for political gain, and often forget about their brothers and sisters in-arms, despite outwardly proclaiming not to. Rep. Perales has always made the time for every Veteran (and there have been many) that he's interacted with from The Catalyst. His genuine passion for their wellbeing and personal involvement from their time inside the Military now into the 'Civilian world' is inspiring. That is why I am happy to endorse Rep. Rick Perales for his re-election.

Best,

Daniel Hance
