

Ohio 73<sup>rd</sup> House District,

I am once again humbled by your support. Thank you for giving me the opportunity to continue to serve you in Columbus. This was a hard fought election with a good amount of contention as each side espoused their views and rallied their troops. Now is the time we must bring down the barriers and begin to work together.

I work for all of you; I represent you in Columbus. It is a two way street – I am only able to address the issues that I know about. My door is open to you.

As a State Representative I have 98 other colleagues that have constituents bringing their issues to Columbus – this means that you have the power of the state to move issues forward – if I am not working an issue that affects you someone else might be. I appreciate the freedoms we enjoy in the United States – free and fair elections being one of them. I intend to keep our community and our State strong. With your support this is possible.

My sincere gratitude,  
Rick
